LE HONG CONG

Go Backend Developer

Ho Chi Minh City | (+84) 916 640 931 | lecong.work@gmail.com | github.com/Congle666

SUMMARY

Software Engineering graduate (**GPA 3.31/4.0**) focused on **Go backend development** and system integration. Hands-on experience building **RESTful APIs** and internal tools, delivering enterprise AI rollouts, and running a live product with **paying customers**.

EXPERIENCE

KHOI SOLUTIONS | **Technical Consultant / Solutions Engineer** *(07/2026 – 10/2026)*

Tech stack: Go, Wails, MySQL, Amazon Q Business, Microsoft 365 (SharePoint, OneDrive), Microsoft Entra ID

Highlights: Built a Go ticketing tool • Assessed 28 AI use cases • Client demos & user training

- Built an internal ticket management tool with **Go (Wails)** and **MySQL** to standardize intake, triage and tracking of support requests; automated request sync from Google Forms, added AI-suggested resolutions and distributed installers via **Amazon S3**.
- Connected **SharePoint Online** and **OneDrive** data sources to **Amazon Q Business**, configuring authentication and access control through **Microsoft Entra ID** to meet client security requirements.
- Gathered business requirements, assessed technical feasibility and evaluated answer quality across **28 AI use cases**; authored specifications, ran solution demos and trained end users.

KEY PROJECTS

JUNVITE | **Founder & Backend Developer** *(Live – junvite.com)*

Tech stack: Go (Gin), GORM, MySQL, Docker, Cloudflare R2, SePay Webhook, RESTful API, JWT

Highlights: ~70 paying customers served • Automated payment reconciliation via SePay Webhook

- Built and operate an online wedding invitation platform end to end: designed the **MySQL** schema and **RESTful APIs** in **Go (Gin)** with GORM for orders, templates and **JWT**-based authentication.
- Automated payment confirmation through **SePay webhooks**, stored media on **Cloudflare R2**, and containerized the deployment with **Docker**.

SKILLS

- **Backend & Tools:** Go (Gin, GORM, Wails), MySQL, SQL Server, RESTful API, JWT, Git, Docker, Postman.
- **Cloud, AI & Integration:** AWS (S3), Cloudflare R2, Amazon Q Business, Microsoft 365 (SharePoint, OneDrive), Microsoft Entra ID, SePay Webhook.
- **Consulting & Solutions:** Use-case feasibility assessment, demo/PoC environments, technical documentation, solution presentations and end-user training.
- **Languages:** English – TOEIC 500; comfortable reading and writing technical documentation.

EDUCATION & CERTIFICATIONS

HCMC UNIVERSITY OF FOREIGN LANGUAGES & IT (HUFLIT) | **Software Engineering** *(2023 – 2026)*

- Graduated with Very Good honors, **GPA 3.31/4.0**; **Effort Scholarship** recipient (2025 – 2026).
- Thesis: improved association-rule-based classification models, raising minority-class detection by an average of **26.67 percentage points**.
- Certification: **Google AI Essentials** – Coursera (05/2025).
